(2) If intangible personal property of a nonresident is employed in a business, trade, profession or occupation carried on in Tennessee, the entire income from such property, including gains from its sale, regardless of where the sale is consummated, is income derived from or connected with sources within this state. Where a nonresident individual sells real or tangible personal property located in Tennessee, and as a result of such sale receives intangible personal property (for example, a note) that generates interest income or capital gain income, such interest income is generally not attributable to the sale of the real or tangible personal property but is attributable to the intangible personal property; however, such capital gain income is attributable to the sale of the real or tangible personal property located in Tennessee. Therefore, such interest income to a nonresident does not constitute income derived from or connected with Tennessee sources. However, interest income derived from an instrument received as a result of a sale of real or tangible personal property located in Tennessee, where the instrument is employed in a business, trade, profession or occupation carried on in this state, does constitute income derived from or connected with Tennessee sources.

(j) For purposes of subsection (i), the following definitions apply.

(1) "Member of a professional athletic team" includes, but is not limited to, active players, players on the disabled list, and any other persons who are required to travel with and perform services on behalf of a professional athletic team, on a regular basis, including coaches, managers, trainers and equipment managers.

(2) "Duty days" means all days, from the first day of the official pre-season training period of the professional athletic team through the day of the last game, including post-season games, in which such team competes or is scheduled to compete during the taxable year. "Duty days" include game days, travel days and practice days. For a member of a professional athletic team who renders services for a team on a day that is not otherwise a "duty day" (e.g., representing a team at an all-star game), the member's "duty days" include such a day. joining a team during the season shall begin on the day such person becomes a member and for any member leaving a team during the season shall end on the day such person ceases to be a member. "Duty days" do not include any try-out or pre-season cut days that a player shall survive in order to obtain a contract or any days for which a member is not compensated and is not rendering services for the team in any manner because such person has been suspended without pay and prohibited from performing any services for the team.

Days when a member is not available to render services for the team because of an injury are "duty days" for that member, but are not "duty days spent within Tennessee" for that member unless the team is based in Tennessee.

Nothing in this subitem shall be construed to limit or negate the provisions of §§ 67-4-2014 or 67-4-2112 where deemed appropriate by the commissioner. For purposes of this subitem and subitem (L) below:

(i) "Intangible expense" means:
